Core Spring (course version 1.18.5)

1. Home Page
2. Course Intro
    1. Course Setup
        1. Lab Setup
            1. Lab Setup [Setup]
        2. Rewards Reference Domain
            1. Rewards Reference Domain [Domain]
3. Core Spring Intro
    1. Course Introduction
        1. Course Agenda
            1. Course Agenda [slides]
        2. Spring Overview
            1. Spring Overview [slides]
            2. Spring Overview [lab]
4. Spring Essentials
    1. Spring Configuration
        1. Java Configuration
            1. Java Configuration [slides]
            2. Java Configuration [lab]
        2. More on Configuration
            1. More on Configuration [slides]
        3. Annotations and Component Scanning
            1. Annotations and Component Scanning [slides]
            2. Annotations and Component Scanning [lab]
        4. Inside the Spring Container
            1. Inside the Spring Container [slides]
        5. Introducing Aspect Oriented Programming
            1. Introducing Aspect Oriented Programming [slides]
            2. Introducing Aspect Oriented Programming [lab]
        6. Testing Spring Applications
            1. Testing Spring Applications [slides]
            2. Testing Spring Applications [lab]
    2. Data Management
        1. JDBC Simplification with JdbcTemplate
            1. JDBC Simplification with JdbcTemplate [slides]
            2. JDBC Simplification with JdbcTemplate [lab]
        2. Transaction Management with Spring
            1. Transaction Management with Spring [slides]
            2. Transaction Management with Spring [lab]
5. Spring Boot
    1. Boot Basics
        1. Spring Boot Feature Introduction
            1. Spring Boot Feature Introduction [slides]
            2. Spring Boot Feature Introduction [lab]
        2. Spring Boot - A Closer Look
            1. Spring Boot - A Closer Look [slides]
            2. Spring Boot - A Closer Look [lab]
        3. Spring Data JPA
            1. Spring Data JPA [slides]
            2. Spring Data JPA [lab]

2. Creating REST Application
    1. Spring Web Introduction
        1. Spring Web Introduction [slides]
        2. Spring Web Introduction [lab]
    2. RESTful Application with Spring Boot
        1. RESTful Application with Spring Boot [slides]
        2. RESTful Application with Spring Boot [lab]
3. Spring Boot Testing, Spring Security, and Actuator
    1. Spring Boot Testing
        1. Spring Boot Testing [slides]
        2. Spring Boot Testing [lab]
    2. Securing REST Application with Spring Security
        1. Securing REST Application with Spring Security [slides]
        2. Securing REST Application with Spring Security [lab]
    3. Actuators, Metrics and Health Indicators
        1. Actuators, Metrics and Health Indicators [slides]
        2. Actuators, Metrics and Health Indicators [lab]
6. Core Spring Wrap Up
    1. Wrapping Up
        1. Completed - What's Next
            1. Completed - What's Next [slides]
7. Appendix
    1. IDE Configuration
        1. Configuring TODOs (Tasks)
            1. Configuring TODOs (Tasks) [tasks]
        2. JUnit Tests
            1. JUnit Tests [tests]
        3. Initializing a Spring Boot Project
            1. Initializing a Spring Boot Project [tasks]
        4. Running and Testing a Spring Boot Project
            1. Running and Testing a Spring Boot Project [tasks]
        5. Monitoring HTTP Traffic
            1. Monitoring HTTP Traffic [tasks]
